Subj: Proposal for utilising the mental hospital site at Bangalore.

DEWAN'S OFFICE
9 JUL 1935
No. 2235

No.C.80

Ballabrooie,
Bangalore, 8th July 1935.

Med. 72-35-1

My dear Mirza,

1) The Mental Hospital site is such a very excellent one that I am moved to ask you at once to consider a request on behalf of the Red Cross Society for a portion of it before it is allotted to other people.

2) May I venture to suggest a somewhat comprehensive scheme in this connection ? Firstly, to induce the Municipality to take up a portion of it for one of their dispensaries. The Balepet dispensary is near by. It is located in a portion of a rented building where it is terribly over-crowded, and is not arranged at all in accordance with modern requirements. I feel sure that a high rental is being paid for this building. A transfer to the nearest portion of the Mental Hospital site and capitalisation of the rental now paid would enable the Municipality to substitute an up-to-date building with ample space round it for what can only be an unsatisfactory makeshift.

3) Attached to this might be, firstly, the head-quarters of one of the two Lady Health Visitors working in the City, and secondly, a maternity home for normal cases of child-birth. I understand from

Dr. Parthasarathy that the establishment of homes like this is an urgent necessity for the purpose of giving accommodation to patients whose cases are perfectly normal, but who have no proper accommodation in their own homes, and whom it is not desirable to send to Hospital because the Women's Hospitals are overcrowded, and if normal cases are sent there, the more complicated cases are apt to be crowded out.

S.S. will have the Consultant's regard to this proposal.

4) Thirdly, to build, out of funds to be raised as I have already indicated, a model Child Welfare and Maternity Centre, to which would be attached a Nursery School and a play-ground. I am sure you will agree that there would be great advantage in having these in the same compound as the dispensary, the head-quarters of the Maternity and Child Welfare worker and the Maternity home.

5) In case the rest of the compound is not already allocated for other purposes, may I venture to suggest that the opportunity should be taken to carry into effect another scheme, which I know has your full sympathy, namely the clearing of what is left of the Bangalore Fort of all excrescenses and the treatment of it with the respect due to so important an historical monument. There is now nothing left of the Fort but the big gateway, which falls into two parts, one in the

I quite agree.

outer and the other in the inner fortifications. The outer one is occupied by a small temple and a lot of rubbish, and there appears to be a family living in the place that leads from it to the inner part. The inner part is filled up with tiled and zinc sheds containing Municipal stores and the Municipal dog pound. If the Municipality could be induced to move all these to part of the Mental Hospital site, or elsewhere, the way between the two gates might be opened up, and I think it would be worth while to convert the least offensive of the lean-to sheds into quarters for a caretaker and to appoint a caretaker to see that the grounds are kept tidy, that the walls are not disfigured with posters and otherwise, and that the building is not used, as at present, as a latrine. In particular, I would suggest that the dungeons be kept locked up and shown by the caretaker on payment of a small fee. I visited them this morning and found one of them occupied by a party of beggars and another, that in which Sir David Baird was confined, used as a urinal.

b) It might even be worth while to prepare a short pamphlet narrating the history of the Fort and to direct the caretaker to sell that at a nominal price in addition to charging a fee for opening up the dungeons. If, at the same time, the partition between the two portions of the

gateway were opened up and the place cleaned up generally, the Fort would, I feel sure, become a regular place of visitation by tourists, who at present are apt to think that there is very little of historical interest to visit when they come to Bangalore.

7) I have not mentioned above that the widening of the road on one side of the Mental Hospital will, no doubt, form part of any scheme for dealing with the site. This, combined with the removal of the high wall and the opening up of a series of Welfare buildings, would make an almost incredible alteration in the appearance of the locality.

8) I am deferring making any suggestions to the Municipal Commissioner on the question pending hearing from you on the above scheme. I shall be very grateful if you will let me know whether I shall have your approval in attempting to develop it in consultation with him.

Yours sincerely,

Sd. C. G. Todhunter

My dear Sir Charles,

Many thanks for your D.O. letter No.C.80 of the 8th instant in which you make some suggestions for the disposal of the Mental Hospital sites and other matters. I am obliged to you for the pains you have taken in this connection.

I am in general agreement with your suggestions and am having each one of them considered in consultation with the officers concerned.

Yours sincerely,

RECEIVED 14. SEP. 1935 GENERAL & REV. SECTT.

17/ The existing site, occupied by the Mental Hospital and the Medical Stores is about 7 acres, and the buildings are roughly estimated to cost Rs.1,60,000/- as follows:-

RECEIVED 4 OCT. 1935 GENERAL SECRETARIAT

(8) Sir Charles proposes to have the following buildings constructed on this site viz.,

(1) Dispensary,
(2) Lady Health Visitor's Quarters,
(3) One Maternity Home,
(4) One Child Welfare Centre,
(5) One Nursery School,
(6) One Play Ground,

will be required for all these buildings. Probably, for conveniently accommodating all the above buildings, a major portion of the existing site may have to be utilised. I would suggest that further information about the extent of the site required for all the buildings may kindly be obtained from Sir Charles, before any orders are passed on this subject.

4

(9) Coming to the several items proposed in the letter I would state as follows:-

(1) The Dispensary building:- The construction of a suitable building for locating the Balepet Dispensary is very desirable and may be referred to the Municipality.

(2) Maternity Homes:- The idea of the construction of a Maternity Home for normal cases of child birth is a commendable idea. At present a midwife is attached to each of the eight Municipal Dispensaries in Bangalore City. But by the construction of a Maternity Home in each Division of the City, most of the normal labour cases may easily be attended to in these Homes by the Municipal Midwives, and only difficult cases requiring expert attention, sent to the Vani Vilas Hospital. This will certainly mitigate the over-crowding existing at present in the Vani Vilas Hospital, Bangalore. I am of opinion that two or three such Maternity Homes may be constructed in different parts of the City in the first instance, to cater to the needs of the people of different Divisions.

(3) The construction of a Model Child Welfare and Maternity Centre, and the provision of a Nursery School and a play ground are also very necessary in a big place like Bangalore, and the grouping of all these centres in one place will certainly be an advantage.

advantage.

10) In this connection, I wish to invite the attention of Government to the last para of my letter No.Dis.B.126 dated 23-8-1935 to Sir Charles, forwarded to Government with the Un-Official file No.94 of 35-36/Med.80-35-1. (Extract* noted below). I believe an institution of the sort proposed would be very useful if constructed on the site now occupied by the Timber Yard and the Belli Mutt Creche, on Arlepet Road.

Senior Surgeon.

*Extract of the letter:-

"With regard to the Belli Mutt Creche, it would be very desirable to expand it and locate the Arlepet Dispensary as a part of the Maternity and Child Welfare buildings proposed to be constructed, and convert the Creche into a regular Ante-Natal and Child Welfare Cilinc. I shall be very pleased to give any suggestions in regard to the plan and disposition of the buildings, when the scheme is formulated".

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

General and Revenue Secretariat

Dated, Bangalore, 14th Sept. 1935

No. 2210/46

From

The *General Secretary to the Government of His Highness the Maharaja of Mysore.*

To

The Municipal Commissioner, ~~Bangalore City~~ Bangalore

(Through the President, City Municipal Council.)

Sir,

I am directed to observe that the Balepet Dispensary is now located in a part of a rented building, where it is terribly overcrowded, and is not planned in accordance with modern requirements and probably a high rental is being paid for it also.

In connection with the proposals for utilising the present Mental Hospital site, I am to suggest for the consideration of the Municipal Council the transfer of the Balepet Dispensary to a portion of the Mental Hospital site which will have to be paid for by the Municipality. The capitalisation of the rental now paid would enable the Municipality to substitute an up-to-date building with ample space round it, for the existing one which is quite unsatisfactory.

I am also to suggest that this opportunity should be taken to carry into effect another scheme viz., the clearing of what is left of the Bangalore Fort of all excrescenses and preserving it as an important Historical Monument. With this object in view it would be desirable to take steps to shift the present Municipal Stores and the Municipal Dog Pound to a portion of the Mental Hospital site.

Government would be glad to take over the remains of the Bangalore Fort and maintain it as a Historical Monument.

I am to request you to kindly have the above suggestions

duly considered by the Municipality very early and submit a report to Government.

I have the honor to be,

Sir,

Your most obedient servant,

For General Secretary to Government.

GENERAL SECRETARY 21 OCT. 1935

Dear Mr.Ramaswamy,

In answer to your D.O.letter No.G.2945/Med.72-35-3, dated the 15th instant, regarding the area out of the site now occupied by the Mental Hospital and Medical Stores that will be required for maternity and child welfare and cognate purposes, I don't think I can do better than send you the plan herewith upon which I have, in consultation with the Municipal Commissioner, sketched in roughly some general proposals for utilisation of the site.

You will realise that these are very rough proposals, but if you would like any action taken to work them out in more detail, I am at your disposal. Perhaps as good a way as another, if the matter is now becoming practical politics, would be to appoint a committee of all the interests concerned to work out a detailed scheme.

I wonder if you have any news yet from Simla about the decision they have taken in the matter of the distribution of the Silver Jubilee Fund money. I see that Travancore have received their portion back, so I hope ours will shortly be forthcoming.

Yours sincerely,

GENERAL DEPARTMENT 10 JAN. 1936

Sir,

Adverting to Government Order No. G. 3687-92/Med. 72-35-5 dated the 11th November 1935, appointing a Committee, for considering the best manner of using the present site of the Mental Hospital at Bangalore, I have the honour to submit, herewith, for the orders of Government, the enclosed report of the Committee.

GOVERNMENT SECOND MEMBER OF COUNCIL. 10 JAN. 1936 No. 538

I have the honour to be,
Sir,
Your most obedient servant,

Executive Engineer, 9.1.36
Buildings Division and Secretary to the Committee.

1) Submitted for personal info 10/1/36

HRR.
10/11/36

The Committee appointed under Government Order No.G.3687-92/MED.72-35-5, dated the 11th November 1935, to make recommendations regarding the best manner of using the present site of the Mental Hospital at Bangalore, beg to submit their report.

The Committee propose to deal in the first place with certain general conditions as follows:-

1. It is desirable to open up the site with three cross roads from the Kempe-Gowda Road to the Hospital Lane. The best locations for these seem to be those noted in the plan, which divide the whole into sites of suitable size with a minimum disturbance of existing arrangements. The Committee do not consider that conservancy lanes are necessary.

2. It is desirable to widen the Hospital Lane to a width of 30 or 40 feet. But this should not be done entirely at the expense of the Mental Hospital site. A large portion of the Mental Hospital site should be taken into the lane for this purpose. But there are certain points at which it would be better to acquire land on the other side of the lane than to destroy valuable buildings on the Mental Hospital site.

3. Some minor adjustments in the frontage of the Mental Hospital and the portions of the premises of the Mysore Bank that face onto the Sri Krishnarajendra Road are desirable.

4. It is not desirable to demolish the two considerable houses now standing on the Mental Hospital site and occupying the sites marked as Nos.3 and 13 in the plan, and the division of the whole area into sites has been made with this factor in view.

5. An area measuring 1913 square yards has already been promised in G.O.No...6672-5/Ml.210-34-2, dated the 27th March 1935, to Mr.B. V. Krishna Iyengar. In compliance with the same, the Committee recommend that site No.23 may be allotted to this gentleman. Its actual area is 1915 square yards.

6. The Committee would recommend that the site A to the West of the western most cross road be made over for public buildings as follows:-

a) A dispensary at the south-west corner, to replace the Balepet Dispensary and to be erected by the Municipality with the aid, it is hoped, of the donation promised by Mr. Ramanarayan Bhagavandas.

b) Adjacent to this an anti-tuberculosis dispensary with solarium attached. The Municipal Council have voted Rs 5,000/- and a special request has been made to Her Excellency Lady Willingdon for a grant in aid of the same, with the further request that it may be allowed to bear her name.

c) A maternity home with nurses' quarters attached to be erected out of the allotment to be made from the Silver Jubilee Fund for the purpose.

d) At the north-western corner a building designed to accommodate the Red Cross headquarters upstairs and a child welfare centre below, with a nursery school in the compound. This also to be provided out of the Silver Jubilee Fund.

The Committee would recommend that the whole area, with the exception of this portion, be divided into 27 sites as shown in detail below:

No. of site	Area in sq.yds. (approximately)	
1	519	Fronting onto the Sri Krishnarajendra Road. This would fetch a large price if cut up and sold as shop sites. But it would be preferable if an equally good price is forthcoming, to sell it for use for a single business such as a bank or an insurance company.
2	1106	An independent site facing the Hospital Lane.
3	2180	This site contains the Superintendent's quarters and might be sold as it is.
4)	1286)	Three sites of almost equal size (944 square yards each) with frontages to the Hospital Lane.
5)	607)	
6)	600)	
7	1133	A deep site, a portion of which may be sold to the Chamber of Commerce if they are prepared to take it for a fair price.
8	1502	This is a site facing the Kempe Gowda Road.
9)	926)	Sites facing the Cross Road.
10)	937)	
11	951	
12	932	
13	1283	The existing nurses' quarters with this site may be sold as they stand.

An application has been received from the Arya Vidya Patasala for the grant of a site free of charge. The Committee leave it to the Government to say whether this request should be granted. If the Government are disposed to grant, sites Nos.14, 15 and 16 (?) would be appropriate.

As regards the commencement of work, it is perhaps undesirable to attempt the widening of the Hospital Lane until the Mental Hospital is removed. But there seems to be no reason why action should not be taken to dispose of some of the sites at once. Perhaps the most appropriate procedure, if the Committee's proposals are approved, would be to begin with the area to the West of the third cross road, and proceed at once with the erection of the public buildings which the Committee have proposed should be placed there. At the same time, sites Nos.1 and 2 may be disposed of, and if the money realised is sufficient; a start may be made with the construction of the Medical Stores.

Yours obediently,

M Seshadri
